# Simplify document drafting.

Litera Desktop is a single toolbar that includes everything a lawyer needs to draft documents creating an integrated, seamless experience that ensures user adoption and consolidates vendors.

Why Litera Desktop?

Litera Desktop is the legal industry's only unified solution that supports the best-of-breed document drafting technology through a single Word ribbon, streamlining the lawyer's workflow and creating operational efficiencies for IT departments.

🎯 CREATE

Create first drafts with our template and *document assembly* solution. Find and use your best *clauses* faster, with our clause library. *Style* any document from any source consistently and quickly.

🎯 CHECK

Repair and stabilize documents faster. *Proofread* more effectively by reviewing your entire document for potential issues in a consolidated dashboard.

🎯 COLLABORATE

Instantly *compare* complex documents. Protect against metadata exposure over *email*. *Share files* and collaborate with confidence by utilizing our suite of security solutions.

> "It became apparent that with Litera Microsystems, we could have the benefit of using best-in-breed products, as well as a single, forward-thinking supplier. This greatly simplifies the management of our legal technology, while delivering the innovative tools our lawyers need to serve our clients."

Litera Desktop removes complexities for...

Lawyers

Maintain Focus on Clients

Spend more time with clients delivering value, and less time cleaning documents and searching for drafting tools.

Access Everything in One Place

Avoid the need to click through different tabs and different products from multiple vendors to accomplish a task; instead, have all the tools a lawyer needs, where they're needed.

Complement the Workflow

Litera Desktop was built to accommodate all of a lawyer's necessary drafting tools, and can be configured to fit their workflow within Microsoft Office, a document management system, or another content provider.

IT

Consolidate Vendor Relationships

Save time and effort spent on technical support, procurement, and billing with one point of contact that truly understands your business.

Eliminate 'Shelfware'

Eliminate unused technology and ensure adoption by providing a single, comprehensive solution.

Simplify Software Management

Avoid 'conflict' between add-ins with a true complement to the document ribbon. Updates are released quarterly to help plan for upgrades and desktop refreshes, and to help maintain security, increase stability, and compatibility.
